

KATHRYN HURCHLA

I make intelligent experiences where design and technology blur, using first principles thinking and core tenets, accelerated by AI-first engineering approaches.

MOST PROUD OF

Voice-driven interactive visual stream

Video world model generates to html5 canvas with state-managed contextual prompts drifting the video stream.

Real-time voice e-commerce AI agent web app

AI orchestration selects and populates UI modules with generated and retrieved content and media assets.

LLM + vector-based video explainer platform

Recommend product videos through an Azure AI Search and ML Studio/Python Prompt + RAG Flow API endpoint.

SKILLS

- Full-stack development
- TypeScript, Node.js, Lit, React, Next.js, AzUI/AG-UI
- Python expert, asyncio
- AI + agent frameworks
- API, MCP, plugins, skills
- RAG, vector indexes
- LoRA, QLoRA fine-tuning
- WebGL, Nuxt/Vue.js
- Real-time networking (WebRTC, WebSocket)
- Git, CI/CD, AI Ops
- Evaluation, visualization
- Cohesive team building
- Presenting & storytelling
- Client relationships

EDUCATION

M.P.S. DEGREE

Data Analytics & Visualization

MICA

B.F.A. DEGREE

Visual Art

NYSCC at Alfred University

EXPERIENCE

JAN 2026 - NOW | [FANTASY.CO](#) | REMOTE

Associate Principal Engineer

- Drive technology innovation + success across experience design development agency's projects.
- Built functional speculative prototypes embedded with senior leaders independently (generative streaming UI) and with cross-discipline creative teams (agent to webMCP personalized UI).
- Developed a ChatGPT App for new business talks with a prospective global music company client.
- Design, prove, and extend architectural patterns for integrating AI across clients and industries.
- Adapt fast to stacks, code frameworks, protocols.

MAY 2022 - JAN 2026 | [FANTASY.CO](#) | REMOTE

Technology Lead, Data Science Lead

- Specialist in AI engineering + creative technology from proof-of-concepts through launch planning.
- Tech Lead on AI innovation projects (Microsoft).
- Demoed live frequently to stakeholders; explained complexity in simple terms (diagrams + verbally).
- Engineered custom web + digital apps with AI native SDKs, APIs, and core Python and JavaScript libraries, Azure + GCP clouds, ML toolkits (HF Transformers), GitHub, and Claude.
- Led 1-5 engineers incl. freelance and vendors.
- Established development playbook and adapted it for coding agents for plan driven and TDD work.
- Delivered bespoke analytics to Alibaba, Amazon, BP, Disney, J&J, Salesforce, with statistical insights from user tests and data mining.

TESTIMONIALS

"Much of the growth we are experiencing on [client] account comes down to her involvement."

— *Director of AI Innovation*

"Kathy explained the pros and cons of different algorithms and created a LLM prompt template that worked exceptionally well, demonstrating her deep understanding of AI technologies."

— *Team member, Data Engineer*

KATHRYN HURCHLA

ORGANIZATIONS

2021 - 2025

Plotly Dash Ambassador

Open-source contributor in Python Dash data science apps framework. Wrote a college curriculum chapter.

2021 - PRESENT

Nightingale, Data Visualization Society journal

Contributing author and editor of print & digital articles.

Towards Data Science

Author

CERTIFICATIONS & RECOGNITION

2025

Inaugural Code Summit attendee, AI Engineer

2020

Certified Scrum Product Owner, Scrum Alliance

EXPERIENCE CONTINUED

NOV 2020 - NOW | DATA DESIGN DIMENSION | REMOTE

Principal, Author

- Independent LLC focused on writing and publishing.
- Delivered data science and visualization solutions.

JUN 2016 - JAN 2021 | CHILDREN'S HOSPITAL OF PHILA. | HYBRID

Manager of Data Integrity

- Designed and owned automated reporting for executives & clinicians engaged as fundraisers.
- Developed a proof-of-concept predictive analytics model that established a corporate partner pipeline.
- Executed a five-year data quality assurance roadmap aligned with revenue exceeding \$1 billion in growth.
- Developed a Data Health Dashboard including monitoring established thresholds and data syncs.
- Managed 1 employee and 1-2 seasonal interns.

EXPERIENCE CONTINUED

AUG 2015 - JUN 2016 | CHILDREN'S HOSPITAL OF PHILADELPHIA

Senior Data Services Coordinator/Trainer

- Translated strategic objectives into solutions with data and learning for 90+ Foundation, Finance, and executive staff.
- As a member of a Business Analytics team, ensured data availability, documentation, and quality.
- Managed user acceptance and QA testing for CRM system upgrades and features.
- Database administration, permissions, general help desk support, and business unit liaison to Info. Tech.
- Promoted after less than a year in this role.

JUL 2012 - JUL 2015 | PHILADELPHIA MUSEUM OF ART

Senior Development Services Coordinator

- Data management and analyst role in nonprofit business operations and marketing.
- Developed data architecture and reports for funder relationship management which grew collaboration among trustees and staff to accelerate a \$525 million campaign, the largest cultural effort in Philly history.
- Partnered with art collections data managers for metadata and interest mapping to identify prospects.

NOV 2008 - JUL 2012 | PHILADELPHIA MUSEUM OF ART

Development Services Coordinator

- Responsible for all mass data load and output needs for nonprofit CRM database.
- Analysis and segmentation for targeted fundraising donor-hosted event locations and invitation lists.
- Ensured adherence to schedule and budget for an ISBN catalogue periodical sent to thousands of recipients internationally three times a year.
- Liaison to business, civic, & curatorial departments.

JUN 2007 - NOV 2008 | PHILADELPHIA MUSEUM OF ART

Data Center Supervisor

- Increased coordination of business and data teams across departments and a building campus by aligning to achieve member experience goals.
- Expanded new member referrals by overseeing the launch of a gift membership redemption program.
- Accountable for reporting and accounting allocations to Finance of all earned and contributed revenue.
